

Missioned to prepare aspiring young professionals
for the global economy by providing access
to coaching, job training and
professional development.

Sponsor for Success Giving Program

Become a sponsor for success. Sustained, monthly giving is a powerful way to make an impact – especially if you invite your friends to join you. **Please place a checkmark in the circle next to your investment option.**

Here are just a few initiatives your monthly financial investment will influence:

- **Industry-Specific Career Coaching:** Getting your dream career can be faced with many barriers and sometimes a degree or a mentor isn't enough support to overcome those challenges. This is why Mission Accomplish stands out in the region because we are the only community organization providing industry-specific coaching that not only provides support to our students, but helps them set goals, create action plans, and overcome the barriers they face in their lives.
- **Education Care Packages.** A barrier to school success is the lack of resources to purchase needed supplies. With your support, we will provide care packages that include school supplies, bedding, personal care and miscellaneous items needed by students attending college, gap year programs or vocational training programs. These essentials help students comfortably transition while removing financial barriers.
- **Customized Business Toolkits.** A barrier to professional success is a lack of access to needed professional supplies and equipment especially for technical and vocational careers/pursuits. With your support, we will provide students with professional supplies (i.e. business cards, graphic design software, etc.), equipment (i.e. laptop, sewing machines, etc.) clothing, and/or sponsor the cost of attendance to professional events (i.e. networking event, workshops, etc.) that align with their career choice.
- **Career Exploration Trips.** Many of our students do not have the resources to make trips to explore college and career options, but we provide them that opportunity. With your support, business trips, college and career training center tours, and job shadowing opportunities provide students the opportunity to explore their curiosity about certain career paths, experience the industry from the inside, and figure out whether or not the industry, organization, or professional role is a good personal and professional fit.
- **The Mission Accomplished Transition team.** As you know an organization is as good as its people, and without the people working hard every day, we would not be able to accomplish our mission. With your support, the team members providing our career education services will receive training, security, and sustainability. Your investment will give students, their families and program partners peace of mind that the team is invested in the enrichment of the Capital Region community.

Giving Levels and Benefits Are Below: Please place a checkmark in the circle next to your investment option.
