## **SPONSORSHIP INVITATION**

### **ABOUT MISSION ACCOMPLISHED**

**Mission Accomplished is a nonprofit founded in 2011 with the mission to prepare rising young professionals and entrepreneurs for the workforce by providing access to industry-specific coaching, mentoring, and sponsorship.**

Through our programs we prepare young creatives for the workforce and help established entrepreneurs position themselves as industry educators while better streamlining their businesses.

We have served over 6,000 young professionals across Albany, Schenectady and Rensselaer counties. Our priority is guiding and uplifting the voices and talents of rising young creatives and emerging entrepreneurs pursuing careers and growing business in the fashion, beauty, construction, design and public art industries—where diverse professionals have historically been underrepresented in leadership roles.

### ABOUT AVRIL, THE ARTIST BEHIND THE BENEFIT

**Rooted in the warmth of 70s soul and the intimacy of 90s neo-soul, R&B singer-songwriter Avril makes music that feels like a long exhale—the kind that reminds you everything is going to be okay.** Drawing inspiration from the greats who shaped the genre—D'Angelo, Musiq Soulchild, and the timeless artistry of John Legend's *Get Lifted* and Alicia Keys' *As I Am*—Avril is crafting a sound that's as soulful as it is deeply personal.

At the heart of that sound is a simple, powerful intention: to meet people inside their hardest moments and walk them through to the other side. Warm, hopeful, and full of earned confidence, the music holds space for difficult emotions while insisting that light is always within reach.

A graduate of the Clive Davis Institute of Recorded Music at NYU, Avril has spent years building a career at the intersection of music and industry—leading marketing and project management efforts for artists including Sabrina Carpenter, SOFI TUKKER, Kah-Lo, and Icona Pop. Now, armed with that expertise and a deep creative vision, Avril is turning that same dedication inward, with new music on the way in 2026.

“

I believe in the power of community as an invaluable part of realizing one's potential. Throughout my career, I've always sought out opportunities to uplift and empower my communities, because I know first-hand how the right tools, resources, and mentorship can turn a spark into a flame.

”

This event is a perfect opportunity for me to serve the community I'm from — the Capital Region. Supporting Mission Accomplished Transition Services aligns with what inspires me personally, and I'm honored to lend my voice to a cause that means so much to me.
