INTERIOR DESIGN

TEEN INTERNSHIP REQUIREMENTS:

- Must be 16-18 years old
- In or out of high school
- Truly interested in pursuing a career in construction, interior decorating, interior design or visual art
- Seeking mentorship to help you prepare for the transition from school into the workforce, trade school and/or college
- Available to work 3-4 days per week, 10-15 hours per week. One day will be remote.
- Have at least 1 year of experience in the industry you are exploring. For example you are enrolled in a Construction Technology program at your school or BOCES, you've taught yourself certain skills, have learned from family members, etc.

I came into the program interested in interior interior design, but the Mission Accomplished team saw my true interests and introduced me to graphic design. I ended up loving it because it was exactly what I was searching for, even if I didn't realize it at first. I had to learn new digital art skill and get accustomed to the vocabulary used by professionals in the field.

Mingmar

2023 - 2025 Student Intern
Rising Graphic Designer

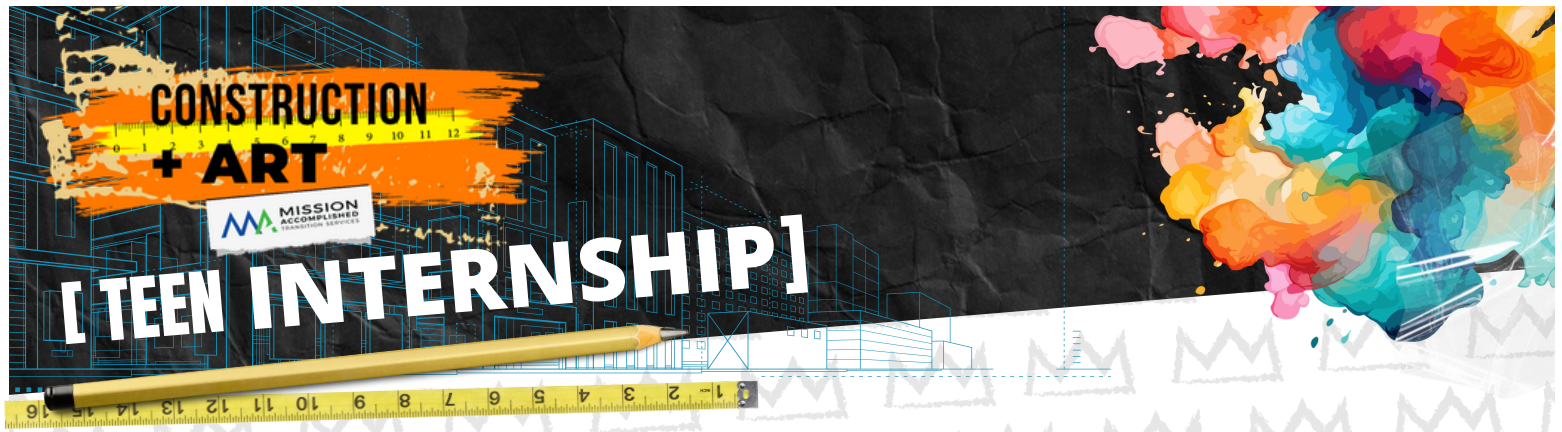

YOU GET PAID

\$3,000 - \$5,000 stipend

WHAT YOU WILL GAIN FROM THE EXPERIENCE:

Career + Business Education + Training.

You will further develop key marketing, sales, branding, project management, growth mindset, public speaking and event planning skills.

Industry-Specific Projects + Events

You will work alongside peers and mentors to coordinate and produce industry projects and events.

Business Tours

You will visit local industry businesses to meet and network with professionals in the construction + art fields.

Industry-Specific Job Shadowing

You will have the opportunity to shadow an industry specialist.

Group Mentorship

You will be paired with industry professionals who will serve as mentors who will help you apply the skills you learn and prepare for work and life after high school.

Creative Teen Showcase

During this public community event you will receive recognition for your work through the internship and practice your marketing, public speaking and sales skills.

STUDENT TESTIMONIAL

I gained valuable skills such as crafting an effective elevator pitch, building a strong network, and setting SMART goals. I also had the opportunity to understand the inner workings of a community center, which aligns perfectly with my dream of opening one someday.
